# A WORD FOR OUR CUSTOMERS

We enjoy meeting the needs of our customers. Our flexibility accommodates production requirements for immediate delivery or release orders to smaller quantities and bin servicing. Most of our quotes are made immediately over the phone. We look forward to a lasting relationship.

"We invite your orders because all of us here at Inland Specialties, Inc. believe:

-->our quality products

-->our conscientious service

-->our competitive pricing

are good enough to earn your business!"

## Terms and Conditions

Terms: Net 30 upon approved credit.

Returns: No returns accepted without prior approval. A 20% restocking fee may apply.

Shortages: Inland Specialties, Inc. must be notified within 3 days of receipt of order of any shortage, damaged material or discrepancies.

# BASIC STRENGTH CATEGORIES:

Tensile (pull)	U.S.	Metric
60 Ksi	-Grade 2	-Grade 4.8
90 Ksi	-Stainless Steel	-Stainless Steel
120 Ksi	-Grade 5	-Grade 8.8
150 Ksi	-Grade 8	-Grade 10.9
180 Ksi	-Socket Head Cap Screws -F911 Bolts	-Grade 12.9

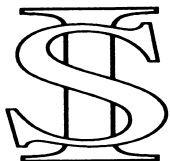

## HOW TO MEASURE:

# Bolts

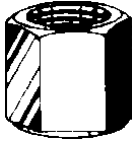

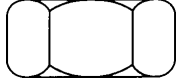

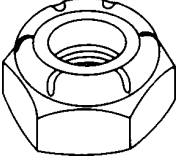

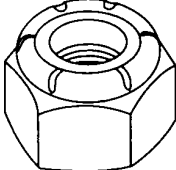

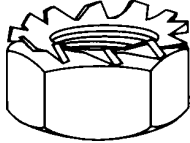

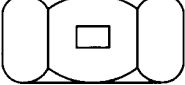

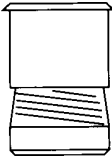

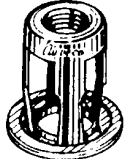

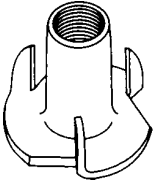

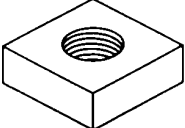

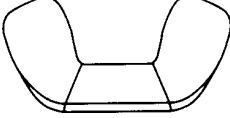

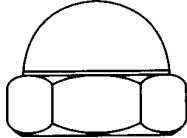

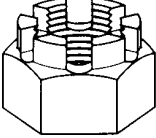

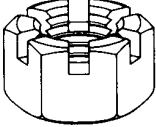

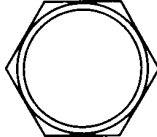

1

<p><b>Hex Cap (Grade 8)</b></p> A hexagonal head bolt with a hexagonal nut. The bolt has a hexagonal head and a threaded shaft.	<p><b>Hex Cap (Grade 5)</b></p> A hexagonal head bolt with a hexagonal nut. The bolt has a hexagonal head and a threaded shaft.	<p><b>Hex Cap (Grade 2)</b></p> A hexagonal head bolt with a hexagonal nut. The bolt has a hexagonal head and a threaded shaft.
<p><b>Carriage (Grade 5)</b></p> A carriage bolt with a hexagonal head and a threaded shaft. The head has a hexagonal shape with a central hole.	<p><b>Carriage (Grade 2)</b></p> A carriage bolt with a hexagonal head and a threaded shaft. The head has a hexagonal shape with a central hole.	<p><b>Step</b></p> A step bolt with a hexagonal head and a threaded shaft. The head has a hexagonal shape with a central hole.
<p><b>Tap (Grade 5)</b></p> A tap bolt with a hexagonal head and a threaded shaft. The head has a hexagonal shape with a central hole.	<p><b>Tap (Grade 2)</b></p> A tap bolt with a hexagonal head and a threaded shaft. The head has a hexagonal shape with a central hole.	<p><b>Lag</b></p> A lag bolt with a hexagonal head and a threaded shaft. The head has a hexagonal shape with a central hole.
<p><b>Plow</b></p> A plow bolt with a hexagonal head and a threaded shaft. The head has a hexagonal shape with a central hole.	<p><b>Elevator</b></p> An elevator bolt with a hexagonal head and a threaded shaft. The head has a hexagonal shape with a central hole.	<p><b>Hangar</b></p> A hangar bolt with a hexagonal head and a threaded shaft. The head has a hexagonal shape with a central hole.

# Nuts

2

<p><b>Machine Screw</b></p> 	<p><b>Finished Gr. 2 &amp; 8</b></p> 	<p><b>Heavy</b></p> 	<p><b>Jam</b></p>
